intentionally used or added, this does not eliminate the presence of negligible traces due to other reasons such as impurities in the components supplied by external parties. We stress that the absence of such substances has not been checked by any tests.

Referring to ANNEX XVII of REACH legislation, (List of restrictions on the manufacture, placing on the market and use of certain dangerous chemical substances, mixtures and articles): We hereby declare that substances listed in ANNEX XVII as such are not intentionally added or expected to be present in the SABIC product above the levels indicated in (Conditions of restriction). Since these substances are not intentionally added or expected to be present above the specified levels, therefore analyses for these substances are not regularly performed.

Automotive standard declaration

According to the production recipe of the SABIC product, the substances listed in
